## Renitherm® to merge with Hensel

In March 2016 **AUDAX-Keck GmbH** will merge with **Rudolf Hensel GmbH**. The aim of the merger is to use current synergies to the benefit of our customers.

The merger with Hensel means that you will now have access to **Renitherm®**, **HENSOTHERM®** and **HENSOMASTIK®** products and will therefore benefit from both companies' decades of experience with intumescent coatings.

You will be supported by a highly qualified team with access to the latest laboratory equipment and its own furnace in Börnsen, near Hamburg. Fire tests can be carried out here in line with the common international standards (DIN, EN, BS, UL) and customer specifications can be implemented even more quickly and precisely.

The Renitherm® products to which you are accustomed will still be available in the same high quality and with unrivalled working properties in the future. Product development will continue to focus on sustainable, environmentally friendly products in the sense of green building.

Günther Keck will still be your personal point of contact, supported by the team of experts at Rudolf Hensel GmbH. We can therefore guarantee that you will always have access to personalised, quick and professional service. In the future, Rudolf Hensel GmbH will process orders, invoices and deliveries directly. Please see Günther Keck if you would like to receive more detailed information.

We would like to thank you for working with us and we look forward to facing new challenges and launching new projects with you.

Kind regards

AUDAX-Keck GmbH

  
Günther Keck
